Petition:

Council Divest: LSE Community Petition (Vote, 25 June)

This is a petition from student, staff, alumni, and members of the wider London School of Economics and Political Science community. We are writing to urge council to vote in support of the [proposals](#) put forward regarding divestment on Tuesday 25th June. The vote seeks to undo LSE's financial complicity in crimes against the Palestinian people, the arms trade, and climate breakdown.

We are deeply concerned about LSE's existing investments and investment policies, and call for improved transparency, accountability, and a move to immediately divest. We call for an overhaul of the existing ESG policy and especially the specious direct/indirect investment distinction, which has unequivocally failed to keep LSE's investments clear of the four egregious activities outlined in the the [Assets in Apartheid: LSE's Complicity in Genocide of the Palestinian People, Arms Trade, and Climate Breakdown](#). We support the immediate actions and next steps put forward in the *Assets in Apartheid* report with the greatest urgency. In particular, we demand the following from Council:

Enact all proposals made in Section 5 of the document submitted to the Council for review and decision, all relevant subsections, and their clauses. These include:

5.1 – Divestment: LSE will divest in whole and with immediacy from the following egregious activities;

- 5.1.a. Crimes against the Palestinian people, including 5.1.a.i. - 5.1.a.v.;
- 5.1.b Extraction and/or distribution of fossil fuels;
- 5.1.c. Proliferation and/or manufacture of arms; and
- 5.1.d. Financing fossil fuel companies and/or nuclear weapons producers.

5.2 – Transparency: LSE will ensure accessibility and public accountability of its investments portfolio;

5.3 – ESG Policy: LSE commits to revising the ESG policy starting September 2024; and

5.4 – Governance: LSE establishes accountability mechanisms and reconfigures investments governance to ensure democratic and ethical oversight.

These demands were supported by the record-breaking turnout and overwhelming 'yes' majority, with over 2,400 votes and 89% in favour in the LSESU's student referendum on divestment, alongside a unanimous LSE UCU branch motion and numerous prior petitions from the LSE community (including current students, the [Jewish community](#), [staff and faculty](#), and [LSE alumni](#)). Divestment was also a core demand for the LSE students and their supporters who held the encampment in the (Marshall) Bloom Building for nearly five weeks before their forceful eviction on Monday 17 June following legal proceedings by LSE. Representatives of the LSESU Palestine Society's *Assets in Apartheid* report have extensively discussed the case for divestment with members of LSE's Investments Sub-committee, Finance & Estates Committee, and Council.

Over the past 250+ days, over 35,000 Palestinians have been killed in Gaza, and the lives and environments of many more completely destroyed. This petition follows the United Nations experts' [statement](#) released on 20 June, declaring that the "transfer of weapons and ammunition to Israel may constitute serious violations of human rights and international humanitarian laws". This most recent urgent concern for "allegations of war crimes and crimes against humanity" applies to LSE since it stipulates that "An end to transfers must include indirect transfers through intermediary" entities, where funds "could ultimately be used by Israeli forces, particularly in the ongoing attacks on Gaza." The statement further stresses that "Financial institutions investing in these arms companies are also called to account," and specifically names JP Morgan, one of LSE's three egregious fund managers identified in the divestment report.

The urgency of this crisis brings a sharp light onto Western academic institutions, and history will judge their decision-making bodies in this moment. LSE has a historic opportunity to live up to its founding purpose to "understand the causes of things," explicitly "for the betterment of society". There is now no doubt that the causes of things like plausible genocide, illegal settlements and occupation, and sustained apartheid are based in the financial complicity of institutions such as LSE. Now is the time for Council to vote and take decisive action, for the betterment of society. We urge Council once more to recognise the very real, very severe present and future implications of these investments, and divest now.

Please urgently sign below by 25th June, when this petition will be sent to Council, and share widely!

1. A Freeman, PG Student, Media and Communications, Student (LSE), Staff (LSE)
2. Aafreen Arshad, International Relations and History, Undergraduate, Student (LSE)
3. Aamina adam, philosophy logic and scientific method, Student (LSE)

1123. Zuzana Dančíková, PhD Student, Department of Gender Studies, Student (LSE), Staff (LSE), Alumni (LSE)

Petition:

LSE Divest: Staff and Faculty Petition

This is a petition from staff and faculty at the London School of Economics and Political Science to senior management regarding the LSE's complicity in crimes against the Palestinian people; the arms trade; and climate breakdown.

The recently published report, [*Assets in Apartheid: LSE's Complicity in Genocide of the Palestinian People, Arms Trade, and Climate Breakdown*](#), has found that the LSE has at least £89 million (18.4% of the portfolio value) of investments in 117 holdings (42.5% of holdings) in 137 companies involved in the following activities:

1. Crimes against the Palestinian people, including through supporting illegal Israeli settlements; and/or supporting the Israeli military; and/or sustaining apartheid;
2. Extraction and/or distribution of fossil fuels;
3. Proliferation and/or manufacture of arms;
4. Financing fossil fuel companies and/or nuclear weapons producers.

We stand in solidarity with LSE students who have launched an encampment in the LSE Marshall Building, demanding that LSE ends their complicity in these four activities.

We are concerned about LSE's existing investments and investment policies, and call for improved transparency, accountability and a move to immediately divest. We call for an overhaul of the existing ESG policy, which has failed to keep LSE's investments clear of the four egregious activities outlined above. We support the demands put forward in the *Assets in Apartheid* report. In particular, we demand the following:

1. Immediately announce LSE's intention to divest at least £89 million from companies involved in the four egregious activities.
2. Begin immediate, practical steps towards realizing this divestment and announce these to the wider LSE community.
3. Establish an open process to update the ESG policy with substantial input from key LSE stakeholders. This should include the Universities and Colleges Union, as well as other groups outlined in the report.
4. Take measures towards greater transparency. LSE's financial relationships with companies are currently unclear, as outlined in the report.
5. Take steps towards correcting what the report calls "a democratic deficit in how LSE manages its investments portfolio." This includes establishing democratic procedures whereby both the Investment Sub-Committee and LSE Asset Managers can be held to account for breaking LSE's Environmental Social and Governance (ESG) Policy.
6. Establish a task force working with the Investments Sub-Committee comprising internal and external stakeholders as detailed in the report, with expertise on human rights violations, corporate complicity, disarmament, and just climate futures.
7. Via recommendations from the taskforce, rework the ESG policy to ensure that LSE holds its investment decisions to a high ethical standard.

Given the urgency of the situation, in particular in Palestine, we call on the LSE to issue a response by June 10, before the close of this academic year.

1. Alpa Shah, Professor, Anthropology
2. Anne Phillips, Professor Emerita, Government
3. Armine Ishkanian, Professor, III and Department of Social Policy
4. Bingchun Meng, Professor, Department of Media and Communications

Petition:

LSE Students in Support of Encampment for Divestment.

We, the diverse LSE student body, endorse the ongoing encampment and its demands. We call on LSE to begin negotiating in good faith. We recognise our petition as a continuation of the growing support that the encampment has received from the LSE community including the Alumni [open letter](#); the Jewish Voices [open letter](#); and the Staff and Faculty [petition](#). We acknowledge the LSE School Management Committee's goal to "preserve our community", as outlined in a public email on the 21st of May. With this in mind, we believe, by supporting the protesters and practising our collective right to freedom of expression, we are actively preserving this community.

The Assets in Apartheid report

We, the student body of the London School of Economics and Political Science, are deeply concerned by the information laid out in the 116-page [Assets in Apartheid](#) report. This report has uncovered that LSE has at least £89 million of investments in 117 holdings in 137 companies involved in four egregious activities. This includes:

- Crimes against the Palestinian people through support of illegal israeli settlements; and/ or supporting the israeli military; and/ or sustaining apartheid,
- Extraction and/or distribution of fossil fuels,
- Proliferation and/or manufacture of arms,
- Financing fossil fuel companies and/or nuclear weapons producers.

Not with our money

One of the financial sources of these investments are our tuition fees. As students of this university, we have unknowingly been forced into association with these crimes. For most home students, student finance is used to fund their university education. It is infuriating to know that what becomes a life long burden of indebtedness contributes to these egregious crimes. Furthermore, international students who often pay three times the amount of home students unwittingly contribute even more to these crimes. We have a right to know, and have control over, what is being done with our money. The legacy of our time spent at LSE is explicitly tied to the investment of our tuition fees. We do not want our legacy to be genocide. We do not want our legacy to be climate collapse.

Endorsement of demands

For the reasons laid out above, we the students wholeheartedly endorse the [demands](#) laid forth by those occupying the encampment. We especially call upon the LSE management to immediately begin the process of divestment from crimes against the Palestinian people. Divestment is not an impossibility, it is a feasible course of action. We want our university to follow in the footsteps of the following institutions who have announced a withdrawal of funds from firms assisting the israeli occupation of Palestine including: the [University of York](#), [Trinity College Dublin](#) and [Goldsmiths University](#).

Endorsement

We, the students, support the encampment in the Marshall Building. The disruption we are experiencing on the campus is for a just purpose. With our money, this institution is facilitating scholasticide. There are no universities left in Gaza. We have witnessed the establishment of encampments around the world, from New York to Rome and are proud that members of our community are a part of this global movement for justice. We are proud to be standing in solidarity with students around the world in resistance to genocide.

Part of LSE

The archives, exhibitions, and alumni that LSE co-opt as part of their ambition in “fostering fearless intellects” tell different stories than the one we are experiencing today. LSE’s 2021 exhibition celebrating the legacy of Dr. B.R. Ambedkar and his achievements, “[Educate. Agitate. Organise](#)”, serves as a startling example. As does [the Hall Carpenter Archive](#), an extensive collection of ephemera surrounding LGBTQ+ activism in the UK since the 1950s. The history of rebellion in the face of institutional repudiation is appropriated and valoursied by LSE with one gesture, and silenced with another. We do not want this protest to become a tool of LSE marketing in 20 years. We want our institution to engage.

When they ask us what makes us feel “part of LSE”, what should we say? Is being part of LSE dependent on feeling complicit? The feeling that our education is always secondary to investment? Solidarity with the encampment marks a reconstitution of what being “part of LSE” could mean. The encampment *is* part of LSE and it sets a powerful precedent for our community. It is the provision of “another world view”, in the words of teacher and writer Refaat Alareer who was killed by an israeli airstrike in December 2023. It is proof that “this isn’t the only thing...there is something else”.

Please use your LSE Email to fill out this petition. This will not be shared publicly, whether or not you choose to be anonymous.

Petition:

LSE Jewish Voices in Support of the Encampment

We, Jewish students and staff at the LSE, write to you in solidarity with the activists in the LSE encampment and throughout the LSE community working to bring LSE's financial commitments in line with its founding purpose, "for the betterment of society." We are deeply troubled to see in the recent report, *Assets in Apartheid: LSE's Complicity in Genocide of the Palestinian People, Arms Trade, and Climate Breakdown*, by the LSE SU Palestine Society that the LSE has at least £89 million (18.4% of the portfolio value) investments in 117 holdings (42.5% of holdings) in 137 companies involved in the following activities:

1. Crimes against the Palestinian people, including through supporting illegal Israeli settlements; and/or supporting the Israeli military; and/or sustaining apartheid;
2. Extraction and/or distribution of fossil fuels;
3. Proliferation and/or manufacture of arms;
4. Financing fossil fuel companies and/or nuclear weapons producers.

Adding to our dismay, the recent email from the School Management Committee (dated 21 May) ignores the serious issues in the university's investment practices and instead criticises students who are peacefully protesting against apartheid, war crimes, and genocide.

The Jewish community is diverse. We, the undersigned, coming from a multitude of Jewish traditions and experiences and holding varied political views, stand together in our support of LSE SU Palestinian Society and their divestment demands.

Our commitment to working alongside the activists in the encampment is rooted in our own sense of Jewish belonging and values. We stand against genocide as Jews. As Jews, we believe that "never again" means never again for everyone. While we know from our own experiences that antisemitism is real and dangerous, spurious accusations of anti-semitism are often used to suppress legitimate speech criticising the Israeli government, like that of our peers, students, and colleagues in the encampment. Our own criticism of that government - members of which the International Criminal Court has sought warrants for arrest given their responsibility in war crimes and crimes against humanity in the state of Palestine - is rooted in our Jewish identity; for many of us, there is nothing more Jewish than standing against genocide.

Our support for the calls for divestment is rooted in our Jewish values of *tikkun olam*, repair of the world, and *tzedek*, justice. While we recognize that grief and fear may be behind some of the sentiments expressed by our Jewish peers, students, and colleagues on campus, we cannot let that grief impede progress towards safety, justice, and liberation for all. Grief and fear given the ongoing atrocities in Gaza also lay behind the calls for divestment. We know that we can hold both; we grieve both Palestinian and Jewish lives lost, and fear for continued anguish as the war proceeds. We know that the movement to end the ongoing genocidal campaign against Palestinians is a fight for Jewish safety as well, as our security is intertwined. It is also a struggle in the name of *tzedek*, justice, given the violent and discriminatory policies the Israeli government continues to enact against the Palestinian people. It is a fight many of us hold dear as part of our own Jewish identities.

As such, we stand in solidarity with LSE SU Palestine Society, and the dozens of university societies and call on LSE to:

1. Divest from companies involved in the four egregious activities identified in the Assets in Apartheid report.
2. Begin immediate, practical steps towards realizing this divestment and announce these to the wider LSE community.
3. Establish an open process to update the Environmental Social and Governance (ESG) policy with substantial input from key LSE stakeholders. This should include the Universities and Colleges Union, as well as other groups outlined in the report.
4. Take measures towards greater transparency. LSE's financial relationships with companies are currently unclear, as outlined in the report.
5. Take steps towards correcting what the report calls "a democratic deficit in how LSE manages its investments portfolio." This includes establishing democratic procedures whereby both the

Investment Sub-Committee and LSE Asset Managers can be held to account for breaking LSE's ESG Policy.

6. Establish a task force working with the Investments Sub-Committee comprising internal and external stakeholders as detailed in the report, with expertise on human rights violations, corporate complicity, disarmament, and just climate futures.
7. Via recommendations from the taskforce, rework the ESG policy to ensure that LSE holds its investment decisions to a high ethical standard.

LSE has an opportunity right now to be on the right side of history. Any University action to shut down the peaceful encampment would work directly against the goals of building a safe and vibrant community for all at the LSE. History has looked kindly upon students and staff who protest war. As one of the foremost social science universities in the world LSE should be familiar with this history. We hope you summon the courage to heed its lessons. We understand that nearly 400 LSE staff have similarly expressed their solidarity and requested a response to the students' demands from the administration by June 10th. We echo their call.

In solidarity,

The undersigned LSE Jewish students and staff

LSE Alumni Open Letter in Support of the Student Encampment for Palestine

*Note to alumni: since we do not have direct financial or academic ties to LSE, we face significantly less risk than the courageous students and staff members currently speaking up against LSE's complicity in funding the genocide. We therefore call on you to sign this open letter publicly if you can, to ensure the validity of the signatures and the effectiveness of our campaign. Your voice matters. Our voices matter!

Dear Members of the LSE Administration,

We, the alumni of the London School of Economics and Political Science (LSE), write to express our unwavering support for the LSE student encampment for Palestine and urge the administration to answer to their demands.

For over seven months, we have watched in horror the atrocities inflicted on the Palestinian people by Israel, abetted by imperial powers and the capitalist war machine. As May 15th this year marked the 76th anniversary of the Nakba, we join the students with the utmost urgency in demanding our institution to stop your complicity in funding the genocide.

We are extremely proud of the students for their powerful demonstration of solidarity, critical thinking and dedication to human rights through this encampment. The students' direct actions and demands are backed by intensive research: LSE Palestine Society's 116-page-long '[Assets in Apartheid](#)' report provides a lucid breakdown of LSE's £48,515,817 investment in companies involved in crimes against the Palestinian people. We are also deeply concerned about students' experiences with inaccessibility at the encampment and the possibility of disciplinary actions being taken against them. We believe it is imperative that the administration engages in open and transparent negotiations without compromising the welfare and/or academic prospects of everyone involved over their peaceful protests.

We fully endorse the [student encampment's demands](#) and [LSE staff and faculty's divestment petition](#). In particular, we call on LSE to:

1. Engage in transparent dialogue with the student representatives of the encampment.
2. Acknowledge the legitimacy of their demands regarding LSE's involvement in the ongoing genocide in Palestine.
3. Take tangible and prompt actions to address these concerns, including divestment from companies complicit in these abuses, and revising policies to ensure the university does not indirectly support such activities.
4. Ensure the safety and well-being of the students and announce an amnesty for all involved in the encampment.

Failing to engage with the students' demands will alienate a significant portion of the university's student, staff and alumni community. LSE prides itself in fostering future leaders of the world and '[fearless intellectuals](#)'; since graduation, many of us have been deeply committed to speaking up and fighting against injustices in the world; we find it increasingly difficult to reconcile these values with an institution that appears unresponsive to such critical issues and contradicts its own mission statement.

Our connection to LSE should be a source of pride, but it is contingent upon the university upholding the ethical standards we were taught to champion. We can not support LSE, whether through donations, active engagement in alumni activities, or public endorsement whilst the institution continues to invest in the oppression of the Palestinian people. We urge you to seize this opportunity to reaffirm LSE's commitment to justice and human rights. By engaging meaningfully with the student encampment and answering to their demands, LSE can set a powerful example of institutional integrity and leadership.

In solidarity,

LSE Alumni for Palestine
